

Warranty and Installation Information

Thank you for choosing Our products we have made every effort to insure we deliver you a quality product but there are a few things you will need to do before installation.

a] Clean head with a suitable solvent and dry with compressed air.

b] Look at all bolt holes to insure all are tapped and clean.

c] Replace all o-rings on the injectors and stand pipes.

d) On heads with o-rings use the fastener manufactures specifications for torque values and sequence. On heads with bolts use the factory specifications in the service manual. (We recommend using studs). The warranty is unlimited mileage from the date of purchase or 1 year whichever comes first. If you have any questions please feel free to contact, Power-Stroke Products
