Sending in Core First Form

Customer Name: _____

Order Number: _____

Date of Order: _____

Your Address: _____

Phone Number: _____

Email Address: _____

Enter what core(s) and quantity you are sending in: _____

- Cores must be free of any external damage, including broken or chipped solenoids on 7.3L injectors. If a damaged solenoid is found on a 7.3L injector core that is sent in, it will be replaced with a blemished solenoid from our inventory. To request a new solenoid replacement, please arrange this with our sales team before placing your order.
- After we receive your cores, please allow up to 24 hours for your order to be processed.
- If you send in 7.3L injector cores, your order will ship as soon as your order is ready.
- Retain all tracking numbers used for sending cores to us and monitor delivery status with your carrier before reaching out to verify receipt. We do not provide confirmation upon receiving cores, but tracking information will be emailed when your order ships.
